Over 900 local boys and girls took part Saturday in the Granite City Junior Chamber of Commerce annual fishing rodeo. The grade found rain in the afternoon no hindrance as they pulled in 142 fish from Horseshoe Lake. Spirits and appetites were high and injuries few in the eleventh annual event which last year drew approximately 800 youngsters.

They ate over 1200 hot dogs and drank gallons of soda, keeping the dripping "dog day" from affecting their fish day. Miss Mary Grace Kahan and two other nurses treated only two injuries during the day, a minor cut and a lodged splinter. Civil defense officers and the Venice safety truck were at the lake to aid in case of injuries.

Prizes were awarded according to cities, the boy with the heaviest fish from each city receiving a bicycle, the girl with the heaviest getting a radio. Second prizes went to each city for the longest caught while third prize went for the first caught. Numerous attendance prizes were also distributed.

Madison entries took home the heaviest fish and the longest one. For his five ounce catfish, Thomas Ingram, 11-year-old son of Mr. and Mrs. William Ingram, 715 Washington avenue, won first prize in the boys' division. The longest fish, an eight and one-half inch catfish, was caught by 9-year-old Larry Morris, son of Mr. and Mrs. Darrell Morris, 2030 Fifth Street.

First prize winner in the Madison girls' division was Laura Boyer, 14, daughter of Mr. and Mrs. Wesley Boyer, 71 Venice Homes. Third prize went to James Salles, 17, whose guardian, Mrs. Myrtle Gray, lives at 2023 Collinsville avenue.

Three Granite City boys tied for first place in their division, each hooking a three-ounce catfish. Don Lesko, 12, son of Mr. and Mrs. Andrew Lesko, 2251 Lee avenue, was announced the winner. The two other boys, Ricky Talley, eight-year-old son of Mr. and Mrs. Harold Talley, 3212 Aubrey avenue, and Carl Yates, 14, son of Olin Rutherford, 2498 Kirkpatrick Homes, received gift certificates.

Granite City girls' winner was six-year-old Kathryn Kwiatkowski, daughter of Mr. and Mrs. Stanley Kwiatkowski, 2413 Jerden avenue. Prize for the longest fish went to P. H. Sorenson, 14, 1742 Omaha street.

Three 14-year-old youngsters took home awards in the Venice division. First prize for boys went to Henry Marsh, son of Mr. and Mrs. Samuel Marsh, 514 Mercedosa street, for the catch of a four ounce carp. Second prize was awarded to Joe Williams, son of Mrs. Clara Ship, 603 Meridian street. Henry Pickett caught the first fish and third prize. He is the son of Lett Pickett, 56 Lee Wright Homes.

Girls' award went to Jean McMorris, 15, daughter of Mrs. Pauline McMorris, 201 Viola Jones apartments.

The top award, a bicycle, was won by Bobby Dew, 7, son of Mr. and Mrs. W. H. Dew, 1819 Troy avenue, Madison. It was one of the 25 other prizes given out. The bicycles were donated by each of the mayors and the Press-Record. Other prizes came from local merchants.

Stanley Lucas of the Jaycees handled the event, while Harold R. Fischer served as honorary chairman. Presenting the prizes and remaining a tableau of composure amidst the din of young voices was the 1961 Miss Granite City, Suzanne Lexow.

Miss Barbara McWhorter, a daughter of Mr. and Mrs. McWhorter, 2667 Highway 67, became the bride of Roger James Lindsay, whose parents are Mr. and Mrs. Eugene Lindsay, 2119 Monroe street, Saturday evening at First Assembly of God Church. The Rev. Paul A. Evans officiated at 8 o'clock before the altar decorated with palms and ferns and lighted with burning candles in candelabra. Preceding the service Mrs. Lindsay sang "Wedding Prayer," and "I Love You Truly," accompanied at the organ by Mrs. Hazel Rhoades.

Mr. McWhorter gave his daughter in marriage. Her gown of hand-clipped Chantilly lace over taffeta featured a fitted bodice, a sabrina neckline and long tapering sleeves with long lace cuffs and sequins at the neckline. The full skirt gave a cloud like illusion as it fell softly into a brush train. A large taffeta bow accented the front. An imported French illusion veil was held in place with a matching headpiece and the bride carried a bouquet of snow crystal chrysanthemums centered with an orchid.

The attendants, Mrs. Lillian Stack, a sister of the bride, and JACK LANGER, MRS. HITT MARRIED. Mrs. Sadie Hitt, 5801 Enright avenue, St. Louis, and Jack Langer, 2161 Pontoon road, were married Sunday morning at First Assembly of God Church, St. Louis following a civil ceremony performed here by Justice of the Peace Louis Kismar.

Rabbi A. E. Halpern officiated at the 11 o'clock ceremony in the presence of the families. The couple will reside at the home of the bridegroom in this city.

RETURN FROM VACATION. Mr. and Mrs. Robert Weston, 2629 East 26th street, with the former's brother and sister-in-law, Mr. and Mrs. W. H. Weston, of New Douglas, returned Saturday from a vacation tour which took them to Washington, D.C., and adjacent points of interest, through the Blue Ridge Mountains and along the coast of Florida where they were guests of Miss Dorothy Benjamin of Clearwater, formerly of this city. Other places were visited enroute. They were away two weeks.

RETURNING TO CALIFORNIA. Mr. and Mrs. Francis Seago and son, Johnny, of Palo Alto, Calif., will leave today to return home after visiting Mr. and Mrs. J. A. Tatum, 2529 Madison avenue and other relatives and friends here.

ENTERTAIN SON. Mr. and Mrs. Everett Blackwell, 2667 Washington avenue, had as their guest over the weekend their son, David, who was enroute from Philadelphia, Pa., to Chandler, Minn., where he has accepted a new position.

LATE SUMMER BRIDE. Mrs. Jack R. Dyer, the former Judith Ann Abernethy, daughter of Mr. and Mrs. Glenn C. Abernethy, 2847 Grand avenue, who was married Saturday evening at St. John United Church of Christ, 2901 Nameoki road.

## Double-Ring Ceremony For Dyer-Abernethy Nuptials

Palms, ferns and bouquets of white gladioli and pom poms in brass urns decorated St. John United Church of Christ, 2901 Nameoki road, for the 8 o'clock wedding Saturday evening of Miss Judith Ann Abernethy, a daughter of Mr. and Mrs. Glenn C. Abernethy, 2847 Grand avenue, and Mr. and Mrs. William R. Dyer, 5216 Nameoki road. Rev. Paul Surbey performed the double-ring ceremony and the blessing of the engagement ring.

Burning tapers lighted the aisle, and white ribbon bows and carnations decorated the pews. The bride, given in marriage by her father, chose a gown of silk bouffant taffeta with a sheer nylon neckline and sleeves applied in richly embroidered roses. The bodice was silhouetted and fitted with a crushed cummerbund. The skirt tapered slightly to the hip line and opened into a voluminous skirt ending in a chapel-length train. Appliques of larger embroidered sprays were scattered throughout the skirt and a matching headpiece of miniature seed pearls held in place.

Levin of Collinsville, and Robert Anderson Jr., Gerald Brown and David Hill of Granite City ushers. Before the wedding, Miss Yvonne Flinder, accompanied at the organ by Mrs. Isabel Schmidt, sang "Because" and the Lord's Prayer.

Mrs. Abernethy selected for the wedding a sandalwood sheath dress of embroidered voile with a softly draped neckline and cap sleeves. A hat in shades of brown and beige shoes and gloves completed her costume. The bridegroom's mother was in ice blue organza with a pleated skirt and embroidered bodice. Her hat of veiling and feathers matched the dress. Both wore orchids.

A reception was held in the Youth Center of the church with Mrs. Gilbert Singleton presiding over the guest book. The bride's table, covered with a double draped linen cloth, was decorated with amaranth and red rose buds. The remaining tables held roses in bud vases. The former Miss Abernethy was graduated from Granite City high school in 1959 and from Evangelical Deaconess Hospital School of Nursing. She is employed in the local elementary school system. The bridegroom, also a graduate of Granite City high, received his A.B. degree from Southern Illinois University.

## Thompson Whiffs 14 In Midget Division No-Hitter Thursday

Bruce Thompson breezed through the Local 16 lineup in a second place Midget division playoff game Thursday night, striking out 14 of the 16 batters he faced to become the second pitcher in the Granite City park district's boys' baseball program to throw a no-hit game in the post season games.

Thompson, who pitched a one-hitter during the regular schedule for the Daybreak Optimists, struck out the first nine batters he faced. He then issued a walk to lose his perfect game, struck out the next four batters and got an infield putout on the only fair ball hit to end the game.

Gene Bryant and catcher Joe Hauptman, Thompson's teammates, each had two triples to lead the Optimists at the plate. The final score was 12-0.

Gary Stanek of Sacred Heart Kaboks pitched the first playoff no-hitter last week in the Bantam Division. The Optimists were representing the Smokeyard Padgett league. Local 16 in the Bantam league.

## Bubblemasters Plan Late Summer Dives

A busy schedule of summer's end activities was planned by members of the Bubblemasters SCUBA diving club during a meeting last week at the YMCA, at which six new members were welcomed into the organization.

The members made plans for club dives with the Alton SCUBA diving organization over the Labor Day weekend at Bull Shoals Lake, and a dive for members at Little Grassy Lake on Sept. 11.

On Sept. 23, the group will hold its last outdoor event of the summer, a combination dive-picnic-underwater treasure hunt, at a location to be announced here. The Bubblemasters will hold an annual banquet here on Oct. 8.

New members joining the club last week were Miss Dora Gonzalez, Newt Kennedy, Fred Law, Fred Rehagen, Dan Linder and Don Pfaff. Others who attended were president A. J. Mueller Jr., Glenn Wright, Carl Krohn, Ron Homyer, Cliff Blankenship, Mr. and Mrs. Louis Brown, Mr. and Mrs. Arthur Evenden, John Evenden and Mrs. Wynne Durbin.

## Both Clubs Open Seasons On Sept. 16; Cross-Town Tiff Set Two Weeks Later

Granite City and Madison high school football coaches this week began dusting off the gridiron equipment, counting jerseys and stocking up on liniment and splints, a better sign than falling leaves that summer is on its way out.

In the Warrior camp, head coach Andy Sullivan announced that the football coaching staff will begin handing out equipment this Thursday afternoon, while new Thursday morning Glen "Pick" Pickering issued football to his lettermen this morning.

Both coaches also released their 1969 varsity schedules. Granite City will play Assumption of East St. Louis in a home opener on Friday, Sept. 16, while the Big Green kicks off another season in Edwardsville the same evening. The Warriors have a nine game card, Madison will play one less varsity contest.

Pickering, about to begin his first season at the helm of the Hubtowners after directing Sparrows to a 5-3 season in 1959, has already picked out a few weak spots, although he will not get his first look at team candidates until Aug. 29, the first day on which any pre-season work may be conducted under IHSAA rules.

"Quarterback is going to be the big problem," he said. Madison has the one-two players at that position — Sam Georgeff and Terry Dutko — through graduation.

"I've talked with Pat (Francis) Dant, who gave up the coaching position to become a grade school principal and it looks like we may have a pretty fair line," Pickering added.

"It won't do much to accomplish anything else all year I can promise you now that we'll be in action," Pickering warned, "probably in a shape that most of the teams we'll play."

Sullivan, in a better position since he "knew" the ballclub he has returning and will be able to get a larger number of practices before the opening game, was worried about lack of speed.

"We're pretty slow, especially

when kicking about to begin his first season at the helm of the Hubtowners after directing Sparrows to a 5-3 season in 1959, has already picked out a few weak spots, although he will not get his first look at team candidates until Aug. 29, the first day on which any pre-season work may be conducted under IHSAA rules.

Physical examinations must be completed by football team candidates before practice starts, and players must also pay a \$250 insurance fee at the high school office before the first workout.

Pickering, after equipping his lettermen this morning and senior and junior candidates from 1 to 5 p.m. Thursday, on Friday during the same hours equipment will be issued to sophomores.

The Warriors begin two-a-day practices on Monday, Aug. 20, with the 9 a.m. and 2 p.m. sessions scheduled to continue each weekday until school starts on Sept. 6.

Madison football team candidates, together with all boys out for any varsity sport, must report to the office of Dr. J. C. Byers for physicals at 9 a.m. Wednesday.

The Trojans hold their first dress rehearsal on Monday afternoon, Aug. 20, immediately following a teachers' meeting scheduled when first day classes end. They will continue one-a-day workouts daily after that.

One other interesting note: The two teams engaged in the traditional cross-town battle Friday, Sept. 23, at 8 p.m. on the Madison field. The game will be the second of the season for both squads.

## Right-O-Way Charge After Kate St. Crash

Charged with failing to yield right-of-way at Kate Street and Lincoln avenue, scene of an auto accident, early Saturday, the driver of one car posted his driver's license as bond.

Arrested was Elmer M. Zillien, 25, of 2521 Saratoga avenue, who Granite City police said was traveling north on Kate street. The other driver, Elsie M. Flach, 32, of 2551 East 23rd street, was going east on Lincoln avenue when the crash occurred.

## Auto Hits Rear Porch, Damages Foundation

The foundation for the rear porch at the home of Howard 1832 Russell street, was damaged about 11:30 p.m. Saturday when it was struck by an auto.

The Hillmans were awakened by the noise, but did not discover the damage until Sunday morning. They told police the porch was hit by a neighbor who was driving into his garage. The motorist's name was not given on the report.

## Disorderly Conduct Charge

Phil H. Schmitz, 32, Golden Eagle, forfeited \$150 and costs Friday when he pleaded guilty to a disorderly conduct charge before Police Magistrate Gasparovic. Schmitz was arrested by Granite City police Friday morning at 25th street and Cleveland Blvd.

## Grace Slogs To Baptist Softball Playoff Finals

Grace, regular season champion in the Baptist Slow Pitch Softball league, was one step away from clinching the playoff title in addition today after thumping Emmanuel 25-12 Thursday night on a damp Lee Park diamond in Venice.

Ten of the 25 hits which excluded the bats of Grace lettermen went for extra bases. Carli Milikin, Don Crain, Ray White and Jim Roller. Roller also had a double and drove in seven runs.

Ray Smith hit one of the best for Emmanuel, which piled up 16 hits but committed 15 errors, most of them in the slippery outfield. Ray White went the distance for Grace and was the winner. Jerry Gage worked the plate. Jerry Castleton was the losing pitcher. Jerry Smith his batterymate.

The second playoff game between Meadow Heights and Suburban Baptist was postponed due to rain. The two teams are scheduled to meet in Lee Park tomorrow at 7 p.m. tomorrow to determine which will meet Grace in the playoff final, set Thursday at 7:30.

Regular season trophies were presented to Grace, Meadow Heights and Suburban managers during the evening. The teams finished 1-2-3.

## No-Hitter By Favier Boosts Na-Bor-Hood To 'B' Title

Na-Bor-Hood cracked out 13 hits, including Jake Hinterser's three-run sixth inning triple in doubling Moose Club 27-2 in the second game, 16-8 as rain continued to make the field slippery.

Don O'Brien doubled in two runs for Moose in the fifth, but catcher Ott Peacher capped an important win for Na-Bor-Hood with a three-run homer in the top of the seventh to give his squad its final eight-run margin of victory. Bill Favier pitched four-hit ball and was the winner, Marv Singler took the loss.

Na-Bor-Hood Cut Rate Liquors hurler Bill Favier capped the regular season in the Granite City park district's Class "B" softball league in dramatic fashion last night at Wilson Park, spinning a no-hitter as his squad turned back Rome and Roy's 2-0 in a playoff game to determine the regular season champions in the loop.

The previous evening Favier had shut out the Pals 15-0 on only three hits to tie Rome and Roy's for the top spot and force last night's special one-game playoff to determine the pairings in the battle for the league's post-season trophy.

The Na-Bor-Hood right-hander struck out 12 last night, and the closest he came to losing his shutout was in the first inning, when he walked leadoff batter Carl Macios and wild-pitched him to third. The only other baserunners came on walks in the fourth, fifth and sixth innings and on a fifth-inning error, charged to Favier himself.

Na-Bor-Hood got only two hits off loser Bill Page, but combined with two Rome and Roy errors, they produced both of the winners' runs in the first inning.

With one out, C. P. Dameron doubled and scored on Jake Hinterser's follow-up single. Hinterser came around on errors by the shortstop and catcher, and the league champions walked in the fourth, fifth and sixth innings and on a fifth-inning error, charged to Favier himself.

Post-season playoffs begin tonight with Na-Bor-Hood meeting fourth-place Moose Club 27-2 at 7, runner-up Rome and Roy's playing third place Modern Exterminators 8-15.

With one out, C. P. Dameron doubled and scored on Jake Hinterser's follow-up single. Hinterser came around on errors by the shortstop and catcher, and the league champions walked in the fourth, fifth and sixth innings and on a fifth-inning error, charged to Favier himself.

Rome and Roy's assured itself of at least a tie for first place Thursday night in a tense nine-inning game which was played in its entirety in a slow, steady rain.

Bob Fare's two-out single in the second extra inning scored Oren Harrison with what stood up as the winning run for Rome and Roy's. The final score was 6-5.

The teams had battled for eight innings on a muddy field to a 5-5 deadlock. Rome and Roy's scored four runs on only one hit in the top of the third, but Exterminator catcher Rudy Diak put his club back in the ballgame with a three-run homer in the bottom of the same inning.

The winners got a single tally in the seventh on two walks and three wild pitches by loser Evans Mank, who was not the only player on the field having trouble controlling the ball.

The Exterminators came right back to tie the score with one run in their half of the seventh on a single and Diak's double. Rome and Roy's starter, Oren Harrison was relieved and fireman Bill "Stitch" Page walked the next two batters intentionally to load the bases, then struck out the next two batters to end the inning.

Catcher Clayton Harrison singled with one out in the top of the ninth for Rome and Roy's, then was forced at second. Rich Buer walked to set the stage for Pare's game-winning single. Pare set the Exterminators

## Moss, Underwood In Men's Finals At GC Open; Five Titles Decided Yesterday

Five first place trophies were carted off from the first annual Granite City open tennis tournament late yesterday afternoon, but the finals in six remaining divisions were rescheduled for today and tomorrow due to rain which hampered play on Friday and Saturday.

Included in the goodies yet to be claimed by participants in the tourney is the biggest prize of all — the men's singles trophy. Appropriately enough, the finals in this division will match two Granite Cityans, tournament chairman Ron Underwood and Granite City high school tennis ace Dave Moss.

Moss and Underwood met in the final match of the tournament at 5:30 p.m. Tuesday at Wilson Park, where all remaining matches will be played. Rain forced some matches Sunday to be played at Jones Park in East St. Louis and on the local Granite City Engineer Depot courts.

Moss beat second-seeded Jim Jarrett, in the semi-finals, 6-0, 6-1, while Underwood had his hands full in turning back U.S. Air Force entry Harry Oble 6-4, 7-5 to reach the finals.

The women's junior singles title went to first-seeded Mary Schneidermeyer, who downed Pat Niemeyer 6-3, 6-2 yesterday. Larry Niemeyer, seeded second, beat Frank Connors 6-4, 6-1 for the boys' 15 singles title and in the boys' 13 singles division first seeded Mike Meis turned back third-seeded Leo Estopore 3-6, 6-4, 6-4 for the first place trophy.

The Junior men's singles title went to Moss yesterday. The top-seeded Granite City youth easily defeated second-seeded Harry Burros in final, 6-2, 6-0, after stopping Danny Sanger in the semi-finals, 6-2, 6-0.

The fifth division championship was decided yesterday saw Mary Ann Eisel and Harriet King win the girls' 18 doubles on a default from Mary Schneidermeyer and Pat Niemeyer, who were formed to drop out of the local tourney.

The tournament drew over 200 entries, including five St. Louis Mums champions. Entries were listed from as far away as Texas and Michigan.

In the lower bracket Dean and King have already reached the finals, and are scheduled against the semi-final winners at 5:30 this afternoon.

**Hearts Suffer 8-3 Setback At Hands Of State Savings**

Losing and winning streaks abruptly came to an end yesterday afternoon in the Southwest-Illinois Inter-City Baseball League, producing a new leader in the Blue division and helping the front-running Red loop win their first game.

Mercer Funeral Home of Granite City topped Maryville 8-2 to move ahead of second place, McAteer Glass by one-half game as the Glassmen had their nine game winning streak cut by McKinley Glass of Collinsville.

The Buick crew, in turn, opened up a 2-game lead over Granite City's Sacred Hearts in the Red division, as the Hearts followed before State Savings yesterday, while Andy Angelo limited the host team to eight hits.

In the second inning Bill Diak opened with a double and scored when Roger Wells pumped out his first home run of the current season. The local club had already picked up a single marker in the first, and added two more in the fourth on catcher Rudy Diak's leadoff triple, a single by Don Crabtree, a fielder's choice and passed ball.

Clayton Harrison's sacrifice fly brought home another tally in the seventh after Charles Johannmeier and John Mudrucic had singled. Wells got his second hit in the eighth, was advanced by Diak's bunt and scored Mercer's final run on Angelo's single.

Maryville scored once in the first and put together four singles in the third of its only other marker. Bob Finke caught for the losers.

Spickard Stops Hearts The Hearts could solve two State Savings pitchers for only four hits, and all of them came off starter and winner Jim Spickard, who hurled six innings, then left the game when he became overheated. Ed Bausa threw neatly, allowing only one base runner, that by walking.

Minus his two regular chasers, Bob Page and Sam Gossett, started pitcher Lyman Tucker charged with the loss. Tucker relieved himself in the eighth, and shut out the visitors the rest of the way. Jim Falk worked behind the plate for the Hearts.

Mike McKinney and Bausa did the damage at the plate for the winners, who moved to within one game of the 500 mark with victory. McKinney had three hits. Bausa a single and triple.

While the two regular chasers, added three in the fourth and two more in both the sixth and eighth. The Hearts stayed close for five innings, scoring one in the fourth and a run in the eighth.

Carpenter caused quite a stir in the Blue division Sunday. The last place team took both ends of a double-header from Highland by scores of 3-0 and 6-3. White City stopped Troy 7-0 in the only other game.

Under consideration would be the relocation of mail handling operations at the Kate Street Station to the new building. The \$3900-a-year lease agreement for the Madison avenue tract was given final approval during last week's session of the city council.

Loch said he had not yet been advised of its approval, but upon receiving the agreement would forward it to postal authorities at Washington. The council initially accepted the \$3900 offer last May after negotiations for the tract were resumed late last year.

**Sportsmen, Briggs Remain Tied For Tavern Lead; Green Hall Challenger**

Sportsmen Club and Briggs Tavern continued to run neck and neck at the top of the Tavern Softball league this week. Sportsmen clipped Home of the Blues 15-1 Sunday while Briggs rested with a 7-0 forfeit win over Jolly Mill.

Creeping up in the standings to challenge the two leaders in the slow pitch loop was Green Hall, only one game back after defeating Polish Hall 6-5 Sunday. Sportsmen Club banged out 19 hits, while pitcher George Vito limited the Blues to just one hit. Bauer homered for the winners, and teammates Bob Dant, Chuck Outland and Ralph Morris each had doubles. Morris and Outland getting two each. Ted Sabo doubled for Home of the Blues. Tom McGee was the loser.

Joe Pedora homered for victorious Green Hall, to help pitch the victory. Frank Spohr had two hits for the winners, George Nennin for a double, Nick Asperger for a single.

who gave up 11 safeties, was the loser. Rich Mendez, Dude Friend and Andy Miotky each had two hits for the Polish Hall.

Bookies Homesteaded, a late season surprise, picked up victory No. five in its last six games, winning over Club Delmar 4-3. Among the 13 Bookies hits was a home run by Jack Dillard, a double by Leonard Mikol and an important single by Ray Mikol.

The third of the Mikol boys, Bob, was the winning pitcher. Harold Schmitt took the loss, with catcher Charles Miller and Charles Buentz contributing doubles to the Club Delmar attack. Jug's Hideaway took over possession of fourth place with a 9-2 win over Mary's Place in the fourth game of the morning. Owner Harrison got credit for the win. The Skysteelers were the loser. John Crnkovich and Bob Morris had doubles for the winners. Sam Dillard drove in two runs for Mary's Place. Harold and Sid Snider each had two hits for the losers.

The investigation report authorized the officer to continue his normal duties and said the case was closed unless further evidence is discovered.

**Industrial Appraisal Methods Outlined**

An outline of procedures used to assess industries in St. Louis county was given members of the Tri-City Tax Study Committee by an appraisal firm, R. J. Wenzel Co., St. Louis, during a meeting Friday afternoon at the YMCA. Also in attendance were representatives of all major local industries.

Richard Reibel, chairman of the committee, said letters will be sent to industries in the future asking the officials to support a program for an equalized reappraisal of all plants in the county. He pointed out that firms here generally are being assessed for tax purposes at a higher rate than those in other areas of the county.

Friday's meeting was attended by 14 persons. The tax study committee is made up of members of the Tri-Cities Chamber of Commerce, Granite City Real Estate Exchange and Associated Retailers.

## Experimental Air Cooler Burns, Loss About \$200

An experimental, gas operated air conditioner caught on fire shortly before dawn Friday at the home of Alex Dumoulin, 5 Frontenac lane, causing damage estimated at up to \$200.

Firemen from the Namsville station answered the call at 4:30 a.m., and "had it out under control in a few minutes," Dumoulin said. Water from a booster tank was used on the blaze.

All damage was to the experimental unit, which Dumoulin said is not yet on the market. He said the air conditioner, which was placed in the yard next to the house, had been in use several months prior to the fire.

"It probably had either a wiring or mechanical defect and got overheated," Dumoulin said. He said he was not authorized to supply much other information about the unit because of its still experimental status.

Firemen left the scene at 5:10 a.m.

## Miss Mega Reports On 'Y' World Conference

The 10-day YMCA World Youth Conference ended last week and Miss Pat Mega and Ron Randall are now continuing their tour through Europe, going to Germany after they left Amsterdam, Holland, the scene of the conference.

Meeting in Amsterdam were 791 delegates from 47 nations who spent the conference time in group discussions and listening to addresses by international figures on the problems and responsibilities facing the world's youth.

After the meeting, Miss Mega, one of the 27 adult leaders chosen from the United States to attend, and her group went to Oberammergau, Germany, where they saw the celebrated Passion Play Wednesday. Later they will travel to Italy, visiting Florence, Venice and Rome, and go from there to Switzerland and France until Aug. 30 when the tour is scheduled to end and the American group returns to this country.

## Conference Schedule

The conference began Aug. 13 and lasted through Aug. 22. Each day included devotions, Bible study, group discussions, two hours of sports and games, and culminated with an address and social hour. Twice the delegates took day tours, one to the Zuidezse works the other through Amsterdam. On Sunday Aug. 21, Protestant, Catholic, Greek Orthodox services were held for conference members in Utrecht, just outside of Amsterdam.

The conference centered around the address and group discussions. Eight men gave the main speeches with the main lines of the speech being incorporated into the group discussions. They were Paul M. Gilbert of the United States, the secretary-general of the World Alliance of YMCA's, who spoke on "Service to Others,"

War and Peace Topic. The discussion topics were generally broad, allowing the delegates to range widely in their opinions. They talked of war and peace, freedom and authority, social, family, church and friends. For these topics, delegates broke out into small groups with no arrangement by religion. The integration was possible because the European boys commanded at least two languages, most knowing three.

In the discussion of war and peace the boys decided the difference between political and peace and other kinds of strength, such as moral or cultural should be made. They felt countries are judged today merely by their military and economic strength.

As a very narrow view. Also the less free the many others, it is less free because everybody is trying to sell it something. Manufacturers, publishers, musicians, politicians, newspapers and television are all peddling something. This is a tremendous campaign for the formation of public opinion. Democracy, communism and Nationalism are saleable items to be pushed throughout the world. Some call them advertisers.

World Alliance of YMCA's, who spoke on the conference theme. In His Hand," Tracy Strong of the United States, also a YMCA secretary-general, who spoke on "War and Peace," and Georges Cressy of France, a theologian and psychologist currently professor of theology at the University of Montpellier, who spoke on "What is Authority."

Also speaking were Pierre Francois, a leader in the French Scout movement and director of the youth department of the United Nations Economic, Social and Cultural Organization, or "This Generation of Youth"; and Horst Field, a German theologian who is General secretary of the National Council of the German YMCA. Perhaps the most stimulating address, Miss Mega reported, was made by Canadian Arnold Fraser, the secretary for the work of the World Alliance of YMCA's. The closing address of the conference was made by the Alliance president, Charles Sherman of Liberia, while a Belgian priest, Fr. R. P. Frize, a Nobel Peace Prize winner in 1959, spoke before him on "Service to Others."

international correspondence club, a model UN Assembly for youths and an international publication for exchange of ideas and cultures.

Strengths And Weaknesses. In his address, Francois listed what he feels to be the strengths and weaknesses of today's youth. As its strengths he noted the great numbers, better education, greater maturity than previous generations, greater desire to travel and learn, the fortune to live in a world that is changing.

As its weaknesses he listed an extensive but superficial education and a longer wait than previous generations for the past it deserves. Juvenile delinquency prevails, he feels, because present schooling does not train for adaptation to adult working life. The main social ills, notably the family, are being destroyed by a cold and violent world.

Among his other comments, "An important point is that youth's energy is not being used... What it needs most of all is intellectual and spiritual strength. It will need strength in technical sciences in science. There are resources and strength in nature only in his own spirit... The cause of social inadaptation and delinquency in young people is boredom."

"Paradox Facing Youth." Francois also spoke on the paradox of the present day living for most teen-agers. "This generation is almost everywhere in a state of tension, freer than any generation before it. It can do, travel further and faster, be hemmed in by fewer restrictions, make more decisions. It sees, hears and experiences more than any of its members' fathers did."

It is less free than any other, it is less free because everybody is trying to sell it something. Manufacturers, publishers, musicians, politicians, newspapers and television are all peddling something. This is a tremendous campaign for the formation of public opinion. Flames raced along wooden supports into the attic of a house under construction at 2602 Pershing avenue Friday afternoon, putting the inside nearly intact. Damage was set at \$2200.

A short in an extension cord that operated power saws used by workmen caused the blaze, firemen said. They said paint and brushes nearby on the floor burst into flame and quickly spread to the roof, out of reach of chemical extinguishers used prior to the fire department's arrival.

Except for a sagging appearance and some smoke marks about the roof, the house appears undamaged from outside, owner Kenneth Hartharger said. He estimated the loss at \$2200 in materials, and said it may go as high as \$5000 if the building is reconstructed.

"I ran and got two carbon dioxide extinguishers and we put the fire out on the first floor," Hartharger said, "but it got away from us into the attic."

Fire department personnel from the main Granite City station were at the scene an hour.

Concealed Weapon Charge. Coming to the rescue of a driver stuck in the gravel on County road Thursday morning, Venice police patrolling the area at 4:20 a.m. charged Theodore Hanks, 39, of St. Louis, with carrying a concealed weapon when they spotted a revolver on the front seat, cushion. He paid a \$20 fine Saturday to Police Magistrate Wesley Edwards.

Auto Engine Ignites. Leaking gasoline in the engine of a 1952 auto resulted in a fire call about 11 a.m. Saturday Granite City firemen reported. The auto, owned by Norma Bladick, 2146 Bryan avenue, caught fire at 27th and Benton streets. There was no loss.

## Two Important, Unrelated Events Of Great Concern To Granite Citizens

Two events, not directly related to each other but of great importance to each and every citizen of Granite City, were touched last week. One was filing of petitions for an election to change from mayor-council form of city government to the city-manager form, and the other was approval of a comprehensive study by Southern Illinois University to determine if local taxpayers are getting fullest value from their tax dollars.

Unless the unlikely possibility of insufficient petitioners occurs, Granite City will have a referendum on city government change before the year is out. The city-manager form has much to commend it, as witness the many cities that have adopted it in recent years, but it is not panacea for all ills. Advocates who have encouraged the spread of this type of government in cities across the nation are the first to emphasize that even a professional city-manager, backed by citizens elected or large interest groups, can accomplish little unless actively supported by a cross-section committee of interested citizenry, organized on a permanent basis.

If this can be accomplished, whatever the problems and disadvantages of city-manager, they can be overcome. On the other hand, it must be admitted that such an active, permanent citizens' committee also would probably elect any other form of government, including mayor-council, work more effectively. Between now and the election, this newspaper will present a comprehensive analysis of the pros and cons of city-manager form of government.

Acceptance by the Granite City council of SIU's offer to send a team of experts here to make a thorough study of the operations of all six taxing bodies should bring yields of increased efficiency, plus economies in these fields of public service. Included in the proposed study are the city, Madison county, park district, school district, township and levee district.

Government elected by popular vote is not always the most efficient, nor does it always keep abreast of the times—sometimes due to antiquated laws or obsolete practices—and a "fresh look" by impartial university experts ought to be revealing, as well as productive.

## Surplus Driver License Fees Could Go For Road Improvements If Not Needed

In this era of budget deficits, public attention is being drawn to a \$6,000,000 surplus built up from Illinois driver license fees. Of the \$3 million cost, \$2 goes into a special fund for driver education. This has produced about \$3,000,000 annually in the past three years.

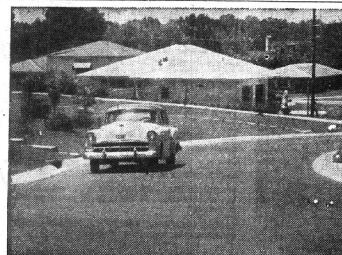

Biggest outlay in reimbursements for driver training costs has been \$1,000,000, but this figure is expected to nearly double this year. Noting that 21,000 Illinois students volunteered for the training two years ago and 32,000 last year, Dr. O. N. Hunter, state driver education director, estimates that the rate will reach \$0.000 this year, \$5,000 next year and \$0.000 by 1962. The \$0.000 level would use up the entire, yearly income unless the total number of driver license increases substantially. The director disagrees with critics of the rapidly-increasing surplus, and says he expects the training program to expand to the point that it will begin cutting into the balance.

There is no doubt of the importance of well-trained drivers, and the increased emphasis in high schools has aided many in learning traffic safety rules and in becoming accustomed to handling cars.

However, if the revenue picture should remain rosy, Dr. Hunter suggests that, thought should be given to utilizing some of the funds. Since they are derived from driver license fees, it might be appropriate to use them in a way that would benefit all drivers—further improvement of Illinois roads.

## soil-cement

It's stronger inch for inch than any other paving material, except concrete.

Tax-saving, low-cost streets can be attractive long-life streets. The answer is modern soil-cement.

Soil at the site, portland cement and water are all that's needed. Mix together, add a blinding topsoil. Modern machines and skilled crews can lay several blocks a day. Soil-cement takes little traffic the first day.

First cost is low and so is maintenance. Sound reasons why more and more communities are using soil-cement to get good streets at low cost. Booklet, "Mr. Jones Left For Work One Morning," is yours free.

## Campaign In Progress To Attract 6,000,000 Tourists From Abroad

A foreign language directory may come in handy on your vacation this year. The U.S. spends more money out of the United States. The president has proclaimed 1960 as "Visit U. S. A. Year," and a record 6,000,000 foreign tourists are expected to do just that. The program is intended to promote travel and good will by encouraging people of other lands to see what America is really like.

It may also serve to reduce the deficit in our trade balance. The U.S. spends more money abroad currently exceed receipts by almost four billion dollars a year. About one billion of this is spent by American tourists overseas; the total expenditure for tourist travel is two billion dollars, and visitors spend one billion in this country.

If the 6,000,000 goal is reached, it will help relieve an economic pinch on the U. S. domestic travel industry. The State Department is cooperating by cutting much of the red tape formerly involved in obtaining a visa for travel in this country. Now a foreigner can obtain a visa in less than a day, providing he is not a Communist and is not a member of the Black Panther Party.

U. S. commercial carriers are responding to the year-long event by introducing special all-cost travel plans. The U. S. Information Agency is promoting tourism with brochures, television and radio spots, and a bill has been introduced in the Senate to empower the Commerce Department to set up government travel bureaus to help publicize U. S. attractions to foreign tourists.

The plan appears to have merit, and is meeting with some success, although the comparative status of currency makes it more expensive for a European to visit here than for an American to travel Europe.

## New Classrooms Being Created, But Day Of Decision For School Systems Is Approaching

Enrollment projections prepared by the administrative staff of the Granite City community unit school district show a "conservative estimate" of 13,555 pupils by the 1963-64 school year. The total enrollment is 8369 in kindergarten and the first six grades, 2706 in the three junior high grades and 2480 in the three high school grades.

Based on enrollment capacities recognized by the federal government, enrollments of this size would result in the schools having an overflow of 2245 elementary pupils, 471 at the junior high level and 833 high school students. If the two additions of the high school had not been made, the overflow would have amounted to 1659 there by 1963-64.

Schools can be crowded more than this would indicate, partially by using rooms as makeshift classrooms, by adding classrooms through partitioning of present dining rooms and by increasing the class size.

While the board of education has no current plans, the day is approaching when additional facilities must be provided—by increased utilization of the existing buildings, adding of classrooms or curtailment of some phases of the curriculum. The latter course would be unfortunate, because the district is in the process of doing just the opposite—enriching its instruction program in many fields.

Since the school district is the largest local taxing body, efficiency of operation is important, and taxpayers may well prefer to air-condition some of the schools and adopt a staggered vacation plan, thereby saving the cost of construction of new buildings and, at the same time, solving the teacher shortage.

If you have something to do "one of these days," you might as well get busy and do it, or you won't have time to do it.

## The FORUM

**RURAL AREA RESIDENTS NEED FOR HEALTH DEPT.**  
To The Forum of the Granite City Press-Record:

Living outside the city limits of Granite City as I do I feel very strongly the need for a "County" Health Department. A Health Dept. that would take into consideration our health problems that present laws do not cover.

Septic tanks overflowing, people who use basement pumps to empty septic tanks into the yard, pets thrown into alleys when they die, stagnant water, standing and breeding mosquitoes, uncovered garbage cans, people who drive from the city (Granite) and dump dogs out in our neighborhood to multiply, livestock being raised in this neighborhood, (hogs and cows), never giving any thought to their neighbors.

The people should know better I agree, but they are like so many others today. They consider their own feeling, and purse strings and nothing else.

And to those who are crying high taxes, well these people empty their own septic tanks by year by employing their own septic tanks in their yards—and ours.

As for the tendency in the world toward anarchy I disagree. It could be that with better communication and news coverage "hear" more of law-breakers. It does not mean it did not exist before. From the beginning of time there has been law breakers and will be to the end of time. We can also hear "good" news if we "listen" for it. But it would not serve the purpose of crying anarchy if it were mentioned.

As for the statement that law makers make laws only for others.

Readers are invited to contribute to this column. Name and address must accompany each communication, but identity of contributor will not be revealed if so requested. Letters should be 250 words or less.

I don't believe that either. I would need "facts" and not hearsay to convince me otherwise.

The people that live inside the city limits may not feel as strong as I do on this subject but I give them this thought: "Any children go to school with yours, attend movies and parks with yours."

And any disease they may contract through the aforementioned conditions, they transmit to yours through these contacts.

Where would we be without politics, or those skilled in political science namely "politicians." It's not a nasty word, one's own mind makes it so you think it is. Where would we be in a land ruled by dictation or such? This is a political question, and I hope it remains so.

Many fine people are working hard for the people of this country and deserve the cheer and thanks of everyone. It is interests and health they have in mind.

Of course, Mrs. Keenheff may have contributed much also in behalf of the residents of Madison county, either in the past or present. I would appreciate hearing of her contributions as I may thank him for his efforts. As I do "thank" the members of the Health Dept. of Madison county.

Respectfully,  
Mrs. Georgia Woodford  
Granite City, Ill.

### POINTS TO VICTORY

SCORED BY SICL

For The Forum

G.C. Press-Record

The Southern Illinois Citizens League has scored a major breakthrough in the litigation front in the battle of Taxation without Representation.

Such an arrangement means that East Side residents who are now, or who become, members of the SICL can benefit as follows: they can get back their escrow tax money if the league wins its present court case against the tax; they can get guaranteed protection against criminal pro-

## seution by Missouri; and they can uphold their rights in the manner expected of law abiding citizens.

In thus affording victimized East Side residents the opportunity to honorably protect their interests and uphold their rights the SICL continues to promote the motivating civic spirit befitting a battle which is representative of our great democracy at work in its purest and most admirable form, that is, grass roots citizens peacefully and resolutely banding together to fight for progressive rights.

Believing this civic spirit to be vital to sustaining our democracy and having scored the breakthrough on the litigation front, the SICL is now ready to open up a "second front."

This next phase, however, requires the proverbial strength in numbers. Therefore, all East Side residents subject to Missouri's State Income Tax are urged to join the fight.

The league's mailing address is P.O. Box 432, Granite City, Ill.

### URGES SUPPORT OF FORAMND BILL

To The Forum of the Granite City Press-Record.

Sir:

Knowing full well that the first amendment to the constitution guarantees me the right of Freedom of religion, of the press, of speech and the right to petition, I nevertheless realize the fact, that the final decision in exercising freedom of the press rests with the editor and publisher who owns or controls the press. So it is in your hands if this letter is published or not. Someone has to be the boss, so it may as well be me.

I would like again to give my views on the pending "Foramnd" Bill. My first letter on the subject has not been published, because it was too long. I was informed. It is not so easy to write on so important a subject when the subject is so technical.

Medical Society required a long, paid for advertisement to state its views of that of the A.M.A. against the "Foramnd" Bill. So in accordance with the rules of the "Forum,"

Thank you very much,  
Joseph Keenheff

## Baptist Group Holds Monthly Meeting

The Associated Baptist Youth group held its monthly meeting Saturday at the First Baptist Church, Granite City, with Miss Joan Wiseman of the Madison First Baptist Church as chairman.

Miss Nancy McManaway of the Madison church, led the song service. The prayer was given by Rev. Austin Fisher, Bethesda Baptist Church. The roll call of churches was taken and the largest representation was from Bethel Baptist Church, Troy.

A feature of the evening was a film "Ah! Eighteen." Rev. Kenneth McDaniel closed the meeting with a prayer. The Madison Baptist Youth Group meets once each month in one of the 20 churches in the association.

to stay within the length limitation of my letter, let me state only briefly that the "Foramnd" Bill is not so scientific like for instance the "Reconstruction Finance Corporation" or the acres of land, fertile you see, for which the owners are getting paid by not growing anything on it. It simply is an insurance like all the others the A.M.A. has vigorously opposed, until it knew it had its say in the bar.

The principle of any insurance law, "One for ALL and ALL for One." The only difference is that it is run by the government instead of a private concern, which, of course is the chief objection of those opposed to it, because the Federal government is not so easily pushed around than a private concern. Would like to write more on this subject but will have to close on account of my limitation and I have no money for a paid advertisement. Maybe my old Alumnus' will one day support in oldtimers with a paid advertisement about the facts of the "Foramnd" Bill, as seen by us, the present as well as the retired Steelworkers.

Thank you very much,  
Joseph Keenheff

\$130. Four wins were for the minimum of 20 cents, and the other was 50-center.

The proprietor of one liquor store told a Press-Record reporter he had had two \$10 winners since the machine was installed.

At the other tavern, a glass jar is placed by the machine as a container for the empty beads. Said one of the proprietors, "You know what I do with them? Give them to the orphanage."

**"Grab Bag" Pays More**

Then there is the "grab bag," which pays off up to \$200—winning numbers. For 50 cents, the customer is permitted to reach into what appears to be a "waste basket" and "grab" a booklet of sealed numbers similar to an over-size book of matches. The winning numbers are also listed on the inside.

More popular than the "grab bag" is the "winner" in which the customer is permitted to reach into what appears to be a "waste basket" and "grab" a booklet of sealed numbers similar to an over-size book of matches. The winning numbers are also listed on the inside.

The proprietors are especially watchful that all such booklets are turned in, winner or not, even to asking the customer if he is "finished" with the booklet. If he hesitates to turn it in, the booklets bear the following markings: "Fast Action Lucky Bob, 5-50, Any Book May Contain Several Winners" on the front cover, and "Fast Action Pay-Off 5-50" on the back.

When asked whether he thought the gambling devices were of local origin or imported, Police Chief Willard said, "I wish I knew. Whoever they are, any chance they get they'll sneak them in."

Detective Chief James Lowder said he thought the devices definitely were imported by an outside syndicate, and installed in perhaps two or three taverns at a time. Then when the "heat" is on, Lowder said, they may be withdrawn altogether for awhile and installed somewhere else later, where the tavern owners have not been warned.

## State Capitol NEWS

An informative recreational guide to the upper Mississippi river is available free from the Fisheries Division of the Illinois Department of Conservation.

The guide, published by the Upper Mississippi River Conservation committee, is illustrated with photographs of things to be seen along the great waterway. In the form of a regular road map, the folder gives tips to the fisherman, hunter, camper and boater. It also discusses history, river lore and wildlife in the marsh and woodland. It covers recreation on the river from headquarters at Itasca State Park in Minnesota to St. Louis, Missouri.

On the back of the folder is an exaggerated map of the river showing locations of locks and dams, boat launching sites, highways and points of scenic or historical interest. Basic information concerning the status and plans for the "Great River Road" is also presented.

Copies may be obtained from the Division of Fisheries, Room 107, State Office Building, Springfield, Illinois.

Drug peddlers are turning to locally grown marihuana to counteract a shortage from Mexico. Gov. William G. Stratton has ordered intensification of the drive against the drug.

The eradication program is already by far the most comprehensive project of its kind ever undertaken in Illinois, according to John Cross, state superintendent of narcotic control. Three hundred and forty-seven acres of wild-growing marihuana has been wiped out in 34 separate areas throughout Illinois during the current season.

Cross called upon landowners to inspect their property for marihuana and to report any growths that may be forming by mowing or spraying with a weed killer.

Gov. William G. Stratton announced that highway construction in Illinois has reached an all-time peak with payments to contractors for the first six working days of August averaging \$1,250,000 per day.

The governor said that on August 22 the payments for the one day

of highway construction projects amounted to \$3,222,836 — an all-time record for state highway building in Illinois.

During July, a report from Director E. A. Rosenstone of the Department of Public Works and Buildings showed average state expenditures for highway construction averaged \$1,000,000 per working day.

Highway construction work is at its peak in all areas of the state with more than \$200,000,000 worth of projects underway. This includes work being completed on some of the major projects for which contracts were awarded last year and on those awarded so far this year.

On July 1 the Division of Highways received bids on contracts valued at \$30,000,000 which established a new record for a single letting in Illinois. Two weeks ago at another bid letting the state received bids on work valued at \$28,000,000.

The state's next highway bid letting is scheduled for Sept. 13.

Engineers estimated that approximately 50,000 men are now employed in Illinois on highway construction and projects related to supplying the materials for various phases of the work.

During the fiscal year ending June 30, 1960, 4219 handicapped persons were successfully rehabilitated through the Division of Vocational Rehabilitation, according to an announcement last week by Governor William G. Stratton. This represents an increase of 426 over the previous year.

Among those rehabilitated, 2064 had an orthopedic disability, 735 were tuberculous, 442 were deaf or hard of hearing, 264 had emotional disorders, 114 were blind and 500 had other disabilities. All are now gainfully employed, and approximately \$8,859,900 will be earned the first year by these handicapped individuals. There earnings, in a majority of cases, will remove these persons from the rolls of public assistance and make them financially independent.

Figures reveal that traffic deaths on Illinois streets and highways during July were the lowest for that month since 1948. Gov. William G. Stratton has announced.

One hundred and twenty-five persons were killed during the month as compared to 160 in July 1959, a decrease of 22%.

## 16,045 In County

## Social Security Benefits Top Million Dollars Monthly

Social security payments to Madison countyans amount to \$1,039,231 a month, according to Ralph Brasher, manager of the East St. Louis district social security office. It is one of four counties in the state in which the benefits top a million dollars a month.

The benefits are being received by 16,045 residents. "This is an increase in number of beneficiaries of about 7% since February 1959, the last previous date for which Madison county figures are available," Brasher said. "The beneficiary group includes 8207 retired workers, 450 disabled workers, 2816 wives or husbands of retired or disabled workers, 1910 widows of workers, 55 dependent parents, 427 mothers with children and 2150 children of retired, deceased or disabled workers."

Payments to a retired worker with no dependents receiving benefits averaged \$69 a month nationally at the end of last December; to a retired couple, both of whom were receiving benefits, the average payment was \$121. The average for a widow with two young children was \$69.

By contrast, Brasher recalled that when benefits first became payable in 1940, the average monthly payment to a retired worker with no dependents receiving benefits was \$22, and to a retired couple the average payment was \$36. As social security celebrates its silver anniversary (the original Act was signed into law Aug. 14, 1935) about 74 million working people are in covered employment in the course of a year. "They are building old-age, survivors and disability protection

for themselves, their dependents and their survivors under the social security law," Brasher said. For the entire state of Illinois, more than 75 per cent of U.S. old-age, survivors and disability insurance payments at the end of December 1959 were being paid to 789,829 beneficiaries at the rate of \$52,263,509 a month. More than 75 per cent of U.S. Marine Corps personnel saw combat duty during the Korean War.

## Museum Conversion Being Considered

The possibility of converting the Madison County Historical Museum quarters on the courthouse third floor into a third circuit courtroom was discussed by the educational and historical committee of the county board of supervisors, last week, at Edwardsville.

A member of the committee said that while no decision was reached at the meeting, two representatives of the historical society were sympathetic with the suggested conversion.

Use of the present grand jury room on the courthouse third floor as a third courtroom and judges' chambers was proposed at a meeting Aug. 10.

The committee indicated it would give further consideration to the museum room conversion plan before making any recommendation to the board.

Serving on this committee are William O. Schurr, Jr., Leonard Oram of Granite City, Thomas Harris, Louis Frey and Lester Scheck.

**'Civil Defense' Topic Of  
Legion Prize Essay**

"Civil Defense" was the topic of the third prize-winning essay written by William Etheridge, 19, son of Mr. and Mrs. L. Lester Etheridge, 2305 Washington avenue, in the recent American Legion school award essay contest.

Winners in the state-wide contest which this year drew an estimated 4000 entries were announced recently. Contestants wrote essays answering the question, "How can the American Legion best serve the community?"

Text of Etheridge's essay, which won \$150 for this prize, follows:

**Prize-winning Essay**

"One of the most important aspects of national defense today is civil defense. However, too little attention is given to this important subject. During world war two, civil defense was given greater consideration than it is being given today although the danger is many times greater because of guided missiles, hydrogen bombs, and other terrible weapons. If, in the event of an atomic attack, a majority of the American people are to escape death or serious injury, an effective system of civil defense must be devised.

"The organization and influence of the American Legion especially qualify it for a major role in civil defense. Before any civil defense system will be workable, the people must be made to realize the need for it. By putting on a promotion campaign, the American Legion could make them realize this need. As respected citizens and leaders of their community, the members of the American Legion would command the attention of the people. On a national level, promotion could be done through magazines, radio and television; on a local level, through newspapers, speeches, and campaigns in the schools.

"After the people accept the need for civil defense, they must be taught what to do if an atomic attack does come. The majority of the American people know very little about atomic weapons and think that there is no possible protection against them. However, tests have shown that if a few simple rules are observed, many people will escape serious injury who otherwise would be killed. A program to acquaint the people with these rules could be set up and administered by the American Legion.

"Although the above are important, the American Legion can best serve the needs of civil defense during the aftermath of an atomic attack. Rescue teams should be organized in each community and trained in first aid, rescue work, and working in

"Y" TEEN TOWN DANCES, such as the one pictured, attract usually about 300 teenagers. In addition to the regular Friday night affairs, three special dances are held during the year and an orchestra plays once a month.

## 'Y' Teen Town Rated One of Best In State

An out-of-town businessman once picked up a copy of the local YMCA Teen Town schedule of activities and glanced through it for a few moments. "It reads like the minutes of the 82nd Congress," he exclaimed.

Although a bit exaggerated, the comment made its point — the "Y" Teen Town, a United Fund organization, offers Quad-City teenagers quantity and variety in its social, club and physical activities. And the quality of the programs is widely recognized.

Last year, for example, 34 "Y" clubs in Illinois were given recognition as "honor" clubs, meaning that these clubs had—among other things—successfully completed four major projects within their schools, churches, communities and clubs. It is the highest honor a "Y" club can receive. Of these 34, 11 clubs came from the southern part of the state. Edwardsville had one while the local "Y" Teen Town had ten.

**3-Division Program**

The three divisions of the program—social, club and physical—correspond to the three facets of the teenager's personality which the Teen Town wishes to develop. But if the development comes it has been self-induced, the adult leaders point out.

This aspect of the Teen Town program makes it unique among Illinois "Y" groups: it is self-governing. "Y" directors provide

facilities and guidance; the teenagers themselves decide matters of policy or finance. For in the Teen Town council, 24 youths elected by all the members of the Teen Town meet each week to decide the number and kind of events to schedule for the group.

Assisting the council are the teenage chairman, Mrs. C. E. Townsend, the teenage director, Miss Pat Mega, and a part-time assistant director, Don Mega. The Teen Town council is subordinate only to the general YMCA board.

**Emphasis On Self-Rule**

The tradition of self-rule has proved especially successful in the club activities. Because of opportunities at "Y" clubs, teenagers graduate from high school now with three or four years of first-class experience with leading, balancing budgets, making responsible value judgments and deciding matters for as many as 350 of their peers. Where else can such experience be gotten?

Currently about 350 teenagers are members of 19 clubs—sixteen "Tri-Hi-Y" or girls' clubs and three boys' or Hi-Y clubs. In addition, clubs have been organized for junior high school boys and girls.

Each club elects officers and holds weekly meetings during the school year at the "Y." A typical agenda for a club's activities during the year would include service projects at the high school, at churches and

and throughout the community, such as the Easter Lily parade and the world service candy-selling campaign.

A club's social schedule would include slumber parties, hay rides, honor teas and special dances. Last year Teen Town provided funds to place a South Korean orphan in a foster home.

**Special Activities**

Special committees within the clubs are the Co-ed council, which decides social policy; the Youth and Government committee, which attempts to train leaders and each year sends representatives to the Youth Legislature at Springfield; and the World Service committee which co-ordinates projects raising funds for needy families overseas.

Besides the special club dances, Teen Town has a full schedule of social events throughout the year. Regular Friday night dances attract an average of 300 youngsters. In addition, three annual dances are held — a "Back to School" affair, a Christmas Dance and a "King and Queen" dance in the spring. An orchestra plays for one dance a month, and a juke box with latest records is available at all other times.

**Social Highlights**

Highlights of the social year are the crowning of the Snow Princess at the Christmas Dance and the naming of the year's

regular Friday night affairs, three special dances are held during the year and an orchestra plays once a month.

Two Granite City employees of the U. S. Army Engineer Supply Control office, St. Louis, received cash awards for suggesting better and cheaper ways of controlling and issuing military supplies and equipment. It was announced today, eight others were also given cash awards for suggestions which will save the Army an estimated \$1025 annually.

Presentations were made by Col. Harold R. ### Optimists Hear Recording On Reds Brainwashing

"Listen and Learn" might well have been the title of a tape recorded talk heard by Noonday Optimists Thursday on the techniques used by communists during the Korean police action to persuade 7000 American POW's to listen and, in many instances, succumb to propaganda downgrading the American way of life and the soldier's very existence as a human being.

The 42-minute speech, recorded by Dr. William E. Mayer, a state mental health director in Hawaii and formerly psychiatrist in charge of studying communist brain-washing techniques following the Korean action, was presented by Harlan Dobry, secretary of the T-T-Cities Chamber of Commerce.

Posing questions as to why none of the thousands of G. I. prisoners failed to make good an escape; why 3000 captured Americans, broken in spirit almost literally willed themselves to death; and why 40 of them stood by apathetically watching as a sergeant tossed two of their sick buddies out to certain death in the freezing north Korean winter, psychiatrist Mayer supplied no hard and fast answers, leaving that to the 40 Optimists attending the meeting.

### Boy Scouts Show Films Of National Jamboree

Boy Scouts from Troop 70, guests at Saturday morning's meeting of the Daybreak Optimist Club, showed films taken during the Boy Scout Jamboree last June in Wilson Park and also footage taken at the recently concluded National Jamboree at Colorado Springs, Colo.

The Optimists met at the YMCA at 7 a. m. The invocation was given by Harry Wolff.

### State Loan & Savings To Move Saturday

State Loan & Savings Association will move down the block to its new location, the former First Granite City National Bank building, Niedringhaus and Edison avenues, Saturday and be open for business Monday Aug. 29, according to Robert Backs, secretary-treasurer of the firm now situated at 1304 Niedringhaus avenue.

The newly remodeled building will have walnut as its interior finish, four cashiers' windows, the officers' desks and the wall paneling, all using the material. Black Belgian marble also will be used at the cashiers' windows and the floor will be covered with carpeting.

An elevator has been installed for the second floor which will be leased for offices.

Bay leaf, which grows in Mediterranean countries, has multiple uses. The dried leaves are a flavor for soups, fish and meat dishes. An extract is also used as a hair tonic.

More than 50 per cent of American families take annual vacation trips.

## GC Story Hour Ends Tomorrow With Party

Children's story hour at the Granite City public library, described as "a huge success this year" by Librarian Mrs. Mary Gene Knufinke, will end tomorrow with stories and a party beginning at 10 a.m. in the library auditorium.

Attendance for the six programs held already this summer totals 1053 children well over the approximately 900 who took part in the eight sessions held last year. Last week, 194 attended the story hour and about the same number is expected tomorrow.

## Granite City PRESS-RECORD Page 20 Mon., Aug. 22, 1960

Also pleasing Mrs. Knufinke was the fact that more of the children attending the story hour are checking out books and using library facilities than last year.

Tomorrow, the librarian and Miss Pat Patton will include a fairy tale in their program. Mrs. Knufinke expressed thanks to Harry Fichte for twice bringing his film projector to the library to show cartoons and story films for the children.

## 2 Divorce Decrees Final In City Court

Final decrees were submitted late last week on two divorce cases heard Wednesday in city court before Acting City Court Judge I. H. Streeper of Alton.

Joan Shirley Angle, charging extreme and repeated cruelty, was divorced from Orville Angle. The couple married on April 23 of this year and separated on May 21. There are no children. The court restored the plaintiff's maiden name of Leonard.

Also on the grounds of extreme and repeated cruelty, Dorothy Romines was divorced from Herman Romines. Married May 14, 1957, the couple separated on Aug. 11 of this year. There are no children.

## Basement Motor Burns At Lipsett Steel

A defective motor in the furnace room was blamed for a fire at Lipsett Steel Products Co., 2520 East 23rd street, discovered at 12:15 a. m. Friday.

A blower in the room inhaled the smoke, fire department personnel said, and exhaled it throughout the two-story office building. Otherwise, the fire might not have been discovered until much later, they said.

The motor was on a deep-freeze unit, and carbon dioxide

was sprayed by firemen to extinguish the flames.

"We had to wait until the janitor unlocked the building to get inside," firemen said, "but we had no trouble locating it. When you smell smoke from that kind of fire you can usually tell where it is."

Except for smoke damage, if any, company officials estimated the loss at only \$25. A pump and ladder truck from the main Granite City station, answered the fire call, returning to the firehouse at 12:40 a. m.

An idea is worth very little unless it is conceived by a man who has the ambition and ability to make it work.

## Pool To Close Labor Day; Program Planned

Swimming will continue at Wilson park pool through Labor Day when a special closing program will be held, Robert Miller, pool manager, announced.

Attendance is up from last year for both July and so far in August exceeding last year figures. Only on July 4 did the pool close substantially earlier than its regular 9 p.m. closing time, because of rain. The closing date last year was Aug. 30.

Details of the Labor Day program will be announced later.

## 100 From Quad-Cities To Enter Ceramic Show

Top notch artists from all over the country will be present and will give lessons every hour during the show. There will be a competitive exhibit open to all hobbyists and professionals, and prizes will be awarded to the winners in each category.
